Moldex’s expertise is hearing and respiratory protection to keep workers safer. This laser-like focus results in an offering of innovative world class products.

- Our core products are manufactured in the U.S.A.
- Moldex is specialized in an age of generalization.

With over 50 patents, Moldex is dedicated to developing innovative solutions that address the hearing and respiratory needs of industrial and healthcare employees.

Some of our industry leading solutions include:

The unique contoured shape of Meteors® follows the curves of the ear canal to create exceptional all-day comfort while still providing serious protection.

Dura-Mesh® provides bi-directional protection from dirt on the outside and moisture on the inside resulting in masks lasting longer, reducing usage and saving money.

Up to three distinct sizes in industrial masks and five sizes in healthcare to address today’s diverse workforce.

- Exclusive easy-breathing wave design.
- Less resistance, better breathability.
- Flex-Fit® comfort waves flex with you.
- Soft, cloth SmartStrap® is both hangable and adjustable.

Glide’s unique multi-curved stem custom fits, with just a push and a twist.
SOLUTIONS

HandyStrap® and SmartStrap masks can be conveniently stored around the neck while on a break, keeping them from getting prematurely thrown away or misplaced.

The first disposable earplug dispenser. PlugStations™ hang anywhere earplugs are needed to increase compliance and reduce waste.

The first corded earplug dispenser. Moldex now offers a PlugStation to those that require a corded earplug.

The refillable and recyclable EcoStation™ is easy on the hearing protection budget and easy on the environment.

An air pocket in the tip of our Rockets® reusable earplugs provides incomparable comfort.

The 9000 Series full face respirator’s exclusive overmolded technology reduces weight, parts, maintenance and cost.

All Moldex products and packaging are PVC-Free. A scientific study by Nicholas Anastas, Ph.D. Principal, Poseidon’s Trident LLC, and Matthew Eckelman, Ph.D. at Yale University, Center for Industrial Ecology, confirms that considering the full life cycle of PVC vs. Polyurethane and Polypropylene, the scientific data supports the conclusion that use of Polyurethane or polypropylene are “green” alternatives to PVC and are ecologically preferred. Toxic chemicals associated with PVC disposal have been linked to a variety of health hazards.

Moldex has taken a leadership position among global PPE manufacturers in minimizing our environmental impact. We began with the complete elimination of PVC which is linked to one of the most environmentally toxic materials in landfill disposal and this initiative has now grown into a corporate culture that constantly looks to manufacture innovative products that minimize environmental impact.

Green products and packaging

- Removal of all PVC from our products and packaging.
- Dura-Mesh® shell on disposable respirators allows fewer respirators to be used and a reduction in the waste stream.
- Respirator Lockers® EcoStations and Pocket-Paks® are recyclable products.
- Use of recycled paper for all literature and packaging throughout the company.
MORE AIR. MORE WEAR.

- Exclusive easy-breathing wave design.
- Less resistance, better breathability.
- Larger surface area of the wave design means more airflow.
- More air and more comfort means more wear and compliance.

MORE FLEX. MORE DURABILITY.

- FlexFit® design moves easily with your face and stays in place.
- Pinch-free molded nose bridge.
- Soft foam nose cushion or full face flange.
- Soft cloth SmartStrap® allows you to adjust for a custom fit, and allows respirator to hang around the neck when not in use.
- Dura-Mesh® shell resists collapsing in heat and humidity.
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1.

N95 SmartStrap | N95 M Series | N95 + Nuisance Organic Vapors

Inner Dura-Mesh® helps prevent collapsing from heat and humidity.

Filter media is protected on both sides by Dura-Mesh®.

Outer Dura-Mesh® keeps respirator cleaner looking.

Soft Foam Full Face Flange on 4300, 4400, 4700/1, 4800/1 and M4620/1 models.
MORE COMFORT. MORE USE.

- Cool and comfortable SmartStrap allows respirator to hang around the neck when not in use.
- Longer use means less waste, fewer respirators used and lower costs.
- Metal free. (SmartStrap models only).

N95 Series Applications:

N95 Plus Nuisance Levels of Ozone and Organic Vapors Applications:

P100/N100 Series Applications:
- Metal Working, Grinding, Sanding, Sweeping, Bagging, Foundries, Pharmaceutical Operations, Power Plants, Environments where an OSHA substance specific standard applies (e.g., lead, cadmium, inorganic arsenic, MDA). Where oil mists are present, either alone or in combination with solid particulates, an R or P respirator must be used.

P95 Series Applications:
- Where oil mists are present, either alone or in combination with solid particulates, Construction, General Manufacturing, Mining, Oil & Gas, Transportation.

Always refer to instructions before using.

DISPOSABLE RESPIRATORS

2-STRAP SERIES RESPIRATORS

- Dura-Mesh® shell resists collapsing in heat and humidity.
- Facepiece is naturally contoured without pressure points.
- Molded nose bridge seals easily without a metal noseband.
- Softspin® lining for increased comfort.

- Soft foam nose cushion for added comfort.*
- Up to three distinct sizes in industrial masks and five sizes in healthcare to address today’s diverse workforce.
- Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1.

*Soft Foam Nose Cushion

Contour shaped for comfort

Pinch Free Nose Bridge

Outer Dura-Mesh® keeps respirator cleaner looking.

Inner Dura-Mesh® helps prevent collapsing from heat and humidity.

Filter is protected on both sides by Dura-Mesh®.

Softspin® lining is comfortable against the face.

Button valve lets workers breathe easy and stay cool, and helps the masks last longer.

100% PVC-Free for a greener alternative.

N95 HEALTHCARE RESPIRATORS & SURGICAL MASKS

1500 N95 Series Healthcare and Surgical Mask

- Available in 5 sizes for today's diverse workforce.
- Highest ASTM level of fluid resistance on the market (160mm Hg).
- Bacterial Filtration Efficiency (BFE)>99.9%.
- Meets CDC guidelines for TB exposure control standards and protection against laser plumes of surgical smoke.
- No need for pre-stretching straps.
- Not manufactured with natural rubber latex.

- N95 Plus Nuisance Levels of Ozone and Organic Vapors Applications:

- N99 Series Applications:

  Always refer to instructions before using. 100% PVC-Free for a greener alternative.
COMPLIANCE JUST GOT A WHOLE LOT EASIER

Moldex designed the 7000 and 7800 half masks and 9000 full face series to be the most user friendly respirators on the market. These streamlined respirators feature fewer parts, minimal maintenance, and a wider field of vision. They are all ultra-light weight, durable, and economical, so maximum comfort with extended use is built-in. The award-winning 7000/7800/9000 series add up to simple, comfortable, and economical respiratory protection that’s just plain EASY TO WEAR.

7800 PREMIUM SILICONE HALF MASK

The 7800 Premium Silicone Half Mask has higher resistance to heat and compression, with all the enhanced comfort and durability of silicone.

Full range of gas/vapor cartridges for these common applications and environments:
- Foundries, paper, pesticides, wood products, printing, pharmaceuticals, agriculture, tobacco, mining, petrochemical, aluminum processing, textiles, glass, chemical manufacturing, paint, laboratories, utilities, cement, fiberglass, coal, fertilizer, petroleum refining, oil or water-based paints, electroplating, embalming, rendering, adhesives, construction, automotive, food processing, mining, transportation industries, ship/boat building, health services, furniture manufacturing, primary and fabricated metal.

Common applications and environments for 7940 P100 filter and 7990 P100 cartridge:
- For contaminants where an OSHA substance specific standard applies (asbestos, lead, cadmium, inorganic arsenic, MDA) requiring a High Efficiency Particulate Air (HEPA) filter as well as pharmaceutical, battery, nuclear, welding, metal processing. Also for use in environments where oil-based particulates are present.

Common applications and environments for N95:
- Welding, grinding, machining, bagging, buffing, cement, metal working, dusty environments, foundry, mining, poultry, sanding, wood, furniture, textiles, waste processing.

Always refer to instructions before using. 100% PVC-Free for a greener alternative.
7000/7800 FEATURES

- Adjustable head harness for a custom fit
- Wide flange fits more facial shapes comfortably
- Compact, fits under welding helmets
- Low profile, angled cartridge placement for wider field of vision
- Contoured neck buckles for comfort and quick attachment
- Easy mount bayonet cartridge/filter attachment
- Attached exhale cover for easy inspection
- The versatile 7000/7800 has optional drop down/lock down strap modes

100% PVC-Free for a greener alternative.
9000 FEATURES

Lightest weight facepiece of any popular model. Weighs less than 13 ounces.

Over-molded buckles for secure strap attachment - one finger strap release

Over-molded flange to lens. Eliminates heavy metal clamping frame for less weight and fewer parts.

Panoramic lens with peripheral vision side panels

Integrated exhale area with attached cover. Fewer parts, simple maintenance and inspection.

100% PVC-Free for a greener alternative.

- **7500 Formaldehyde**
- **7800 Multi-Gas/Vapor Smart Cartridge**
- **7900 P100 Particulates**

#### 7000, 7800 and 9000 Particulate Filters
- Use 8910 N95 Pre-Filter with the 7020 Pre-Filter Retainer with any Gas/Vapor Cartridge.
- Use the 7940 P100 Filter Disk or 7950 P100 Filter Disk plus Nuisance OV/AG, or the 7960 P100 Filter Disk plus Nuisance OV as stand alone filters.
- Use the 7940 with the 7920 Piggyback Adapter with any Gas/Vapor Cartridge.
- Use the 7999 Splash and Spark Disk Cover for filter protection.

#### 7000, 7800 and 9000 Combo Stacked Cartridge/Filters
- Pre-assembled Cartridge + Adapter + Filter for easy attachment.
- Optional replacement of either cartridge or filter, as needed, for optimum usage and cost savings.

#### 7000, 7800 and 9000 Retainers and Accessories
- 7020 Pre-Filter Retainer
- 7920 Piggyback Adapter
- 9780 Reusable Respirator Bag
- 0075 Fabric Head Cradle Assembly

*100% PVC-Free for a greener alternative.*

**BATTLEPLUGS®**

- Authorized hearing protector for use by soldiers and Department of the Army civilians.
- Dual Mode Protection.
- Open cap to hear commands while maintaining impulse noise protection.
- Closed cap for continuous/steady noise.
- The louder the blast, the more noise reduction (in open position).
- Cap is easy to open and close, in-ear.
- Easy to see when cap is in open or closed mode.
- Easy to clean.

**Product Code and Description**

- 6498 - Pocket-Pak Duo BattlePlugs with Camo Foam
- 6598 - Pocket-Pak Duo BattlePlugs with Glide Camo Foam Twist-In

**Specifications**

- Open cap to hear commands while maintaining impulse noise protection.
- Closed cap for continuous/steady noise.
- The louder the blast, the more noise reduction (in open position).
- Cap is easy to open and close, in-ear.
- Easy to see when cap is in open or closed mode.
- Easy to clean.

**100% PVC-Free for a greener alternative.**
The MX-5, MX-6 and MX-7 are a cool and comfortable upgrade in earmuffs. The larger cup openings are designed to fit most ear sizes. Exclusive waffled cup foam delivers superior protection in MX-6 and MX-7.

The cushion-ribbed headband allows cool comfort all day long and the non-slip wire makes adjustments easy. The MX-5, MX-6 and MX-7 are easy to wear and durable, have a sharp, cool look and increase compliance.

- The headband is made of lightweight plastic and metal
- Exclusive bright green colour and sleek, curvy shape for a look that workers will want to wear.
- 100% PVC-Free for a greener alternative.

EARMUFFS

Independently tested for protection you can count on

MX-7 easily slots into almost all hard hats.
**TRAIN-THE-TRAINER PROGRAM**

- Train and certify a designated employee at your company to perform onsite fit testing for your workers.
- Qualitative & Quantitative Programs.
- Our training program includes a syllabus, Respirator Selection Guide, training certificates and wallet cards.

**FITCHECK SOLO LOAN PROGRAM**

- FitCheck Solo™ helps take the guess work out of matching the correct hearing protection with known noise exposure.
- Test from 3 to 7 frequencies and generate the FitCheck Solo Personal Attenuation Rating (PAR).
- For details on our loan program, contact our Technical Service Department at 800-421-0668 ext. 512 or at tech@moldex.com.

**PORTACOUNT LOAN PROGRAM**

- Quantitatively test a variety of respirator types eliminating the guesswork found with other testing methods.
- For details on our loan program, contact our Technical Service Department at 800-421-0668 ext. 512 or at tech@moldex.com.

**OHD CARTRIDGE LOAN PROGRAM**

- Quantifit then establishes and maintains a slight vacuum, or controlled negative pressure, inside the mask.
- CNP technology was accepted by OSHA in 1998, and has quickly been adopted by industry to be the quickest and most accurate way to perform respirator fit testing.
- The gold standard in respirator fit testing.
