

## Outdoor 6.5 Gallon Spill Kit

Absorption, Protection and Disposal In One Kit

**The Outdoor All-Purpose 6.5 Gallon Spill Kit** contains absorbent pads, socks, an absorbent particulate and personal protection materials. This kit is designed to absorb up to five gallons of oil or water based liquid spills. The XSORB Outdoor absorbent is a heavier product making it excellent for outdoor spills in light windy conditions, however it can be used for indoor spills as well.

XSORB Outdoor out performs other absorbent materials, absorbing six times as much as clay (kitty litter) or D.E. XSORB is silica-free and will not generate heat when used to absorb certain fuels and oils, as is the case when using other absorbent products.

For proper and safe disposal of absorbed liquids, always follow local and state guidelines.

### Part #XK600D

#### Special Features:

- Absorbs up to 5 gallons
- Complies with HAZWOPPER 29 CFR 1910.120
- Easy to carry to the site of the spill - weighs 12 lb.
