

## Hearing Protection

Hearing protection is required in work environments that are exposed to noise levels equal or greater than 85 decibels (dB) averaged over an eight hour period. It is critical in choosing the appropriate hearing protection devices based on performance, selection, care and use.

**Single-Use Ear Plugs** are easy-to-use and ranging in different attenuation ratings. These disposable foam ear plugs provide the right fit for every user. Products are available in corded or uncorded styles.

**Multiple-Use Ear Plugs** have a unique three-flange design for a better seal in the ear canal providing protection. The firm stem facilitate as easy insertion and removal and increased comfort for long-term wear. Products are available in corded or uncorded styles.

**Detectable Ear Plugs** have a small piece of metal attached to the ear plugs itself or built into the cord. The purpose is when the product is screened for final inspection the screeners are able to locate it and avoid contamination. Products are available in single-use and multiple-use styles.

**Banded Ear Plugs** consist of two ear plugs held over the ends of the ear canal by a rigid headband. These types of ear plugs create less bulk for easy don and doff.

**Ear Muffs** are made from sound-attenuating materials and padded ear cups for a secure fit without compromising comfort.

### Foldable Ear Muffs

NRR  
**34**  
dB

#### 1437Y

- Foldable lightweight headband design
- Adjustable 3 position ear cups for a snug and comfortable fit

 **WARNING:** Cancer & Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

### Ear Muffs

NRR  
**25**  
dB

#### 1425Y

- Foam filled padded ear cups for a snug and comfortable fit
- Adjustable lightweight nylon padded headband

 **WARNING:** Cancer & Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## DuraPlugs® Blue Metal Detectable

NRR  
**32**  
dB

### 14321

- Detectable in an industrial metal detection scanner
- Tapered bullet shape foam for easy insertion and removal
- Low pressure, self-adjusting foam which offers long wearing comfort and quick recovery time
- Compliance with food industry regulations
- 100 pairs individually packaged per box

**14322** Detectable cord and earplugs, 100 pairs individually packaged per box

## DuraPlugs® Conical Band

NRR  
**22**  
dB

### 14421

- Flexible band with conical self-adjusting foam shape fits all size ear canals
- Round ear caps are comfortable for long time wearing comfort
- Each pair individually wrapped, 1 set of replacement buds are included
- 40 pairs individually packed per box

**REP 21** Orange, replacement pods, 20 pairs per polybag, 20 polybags per box

## DuraPlugs® Hi-Viz Orange Reusable

NRR  
**25**  
dB

### 14270

- Unique reusable 3-layer flange fits all size ear canals
- Firm stem for easy insertion and removal
- Uncorded, 100 pairs individually packaged per box

**14271** Corded, 100 pairs individually packaged per box

## DuraPlugs® Hi-Viz Orange Foam

NRR  
**32**  
dB

### 14310

- Tapered bullet shape foam for easy insertion and removal
- Low pressure, self-adjusting foam offers long wearing comfort and quick recovery time
- Uncorded, 200 pairs individually packaged per box

**14311** Corded, 100 pairs individually packaged per box
